MERRIMACK, N.H.--(BUSINESS WIRE)--October 29, 2009--PC Connection, Inc. (NASDAQ: PCCC), a leading direct marketer of information technology (IT) products and services, today announced results for the quarter ended September 30, 2009. Net sales for the three months ended September 30, 2009 were $\$ 403.1$ million, a decrease of $\$ 38.4$ million or $8.7 \%$, compared to $\$ 441.4$ million for the three months ended September 30, 2008. Net income for the quarter was $\$ 2.9$ million, or $\$ 0.11$ per share, compared to net income of $\$ 3.2$ million, or $\$ 0.12$ per share, for the corresponding prior year period.

Net sales for the nine months ended September 30, 2009 were $\$ 1,106.5$ million, a decrease of $\$ 208.0$ million or $15.8 \%$, compared to $\$ 1,314.6$ million for the nine months ended September 30, 2008. Net loss for the nine months ended September 30, 2009 was $\$ 5.2$ million, or $\$ 0.19$ per share, compared to net income of $\$ 13.1$ million, or $\$ 0.48$ per share, for the nine months ended September 30, 2008. The nine-month periods ended September 30, 2009 and 2008 included special charges that reduced earnings and earnings per share. Had these charges not been incurred, pro forma net income for the nine months ended September 30, 2009 would have been $\$ 3.0$ million, or $\$ 0.11$ per share, compared to $\$ 14.0$ million, or $\$ 0.52$ per share, for the nine months ended September 30, 2008. A reconciliation between net loss (income) on a GAAP basis and pro forma net income is provided in a table below immediately following the Consolidated Statements of Operations.

## Quarterly Sales by Business Segment:

- Net sales for the small- and medium-sized business (SMB) segment decreased by $16.0 \%$ to $\$ 182.6$ million compared to the third quarter of 2008, reflecting the reduced capital spending of SMB customers. The SMB segment however increased sales on a sequential basis for the second straight quarter.
- Net sales for MoreDirect, Inc., the Company’s Large Account segment, decreased by $11.4 \%$ to $\$ 103.9$ million compared to the third quarter of 2008. Large account customers continue to be cautious in their IT spending.
- Net sales to government and education customers (Public Sector segment) increased by $9.3 \%$ to $\$ 116.6$ million compared to the third quarter of 2008. Increased federal contract sales and strong K-12 education sales contributed to the year-over-year increase.

## Quarterly Sales by Product Mix:

- Sales of Notebooks and PDAs decreased by $12 \%$ year over year and accounted for $15 \%$ of net sales in the third quarter of 2009 compared to $16 \%$ of net sales in the third quarter of 2008 . Higher unit sales were offset by lower average selling prices, or ASPs, as competitive pricing pressures as well as the growth of netbook sales impacted ASPs.
- Software sales decreased by $1 \%$ year over year in dollars and accounted for $14 \%$ of net sales in the third quarter of 2009 compared to $13 \%$ of net sales in the third quarter of 2008. Strong federal government sales offset slight declines to corporate customers.
- Accessories/Other sales decreased by $3 \%$ year over year, accounting for $13 \%$ of net sales in the third quarter of 2009 compared to $12 \%$ of net sales in the corresponding prior year period. Increased sales of point-of-sale products and mobile computing accessories partially offset the year-over-year decline of other products in this category.
- Desktop/Servers sales decreased by $4 \%$ year over year and accounted for $14 \%$ of net sales in the third quarter of 2009 compared to $13 \%$ of net sales in the third quarter of 2008. Lower unit volumes, partially offset by higher server ASPs, accounted for this decrease year over year.

Gross profit dollars decreased by $\$ 7.0$ million, or $13.1 \%$, in the third quarter of 2009 from the corresponding period a year ago due to decreased revenues and lower gross profit margins. Gross profit margin, as a percentage of net sales, declined year over year by 58 basis points to $11.5 \%$ in the third quarter of 2009. Continued aggressive price competition led to lower invoice product margins in the third quarter of 2009 compared to the prior year quarter.

Overall annualized sales productivity increased by $1 \%$ in the third quarter of 2009 compared to the third quarter of 2008 as an increase in SMB productivity offset decreased productivity in the Large Account and Public Sector segments. Sales productivity in the Large Account segment decreased by 6\% year over year due to lower enterprise revenues. Sales productivity in the Public Sector segment decreased by $9 \%$ year over year due to increased 2009 headcount added late in 2008. Despite lower revenues, sales productivity in the SMB segment increased by 3\% year over year. On a consolidated basis, the total number of sales representatives was 601 at September 30, 2009, compared to 666 at September 30, 2008 and 603 at June 30, 2009. The Company has reduced both sales representatives and sales support headcount over the last year consistent with the year-over-year declines in revenues.

Total selling, general and administrative expenses for the quarter decreased year over year by $\$ 5.6$ million, or $12.0 \%$, and decreased as a percentage of net sales to $10.2 \%$ for the third quarter of 2009 from $10.6 \%$ for the third quarter of 2008 . The year-over-year decreases were primarily attributable to reduced headcount and lower variable compensation associated with decreased gross profits.
"During the third quarter, we continued to experience the effects of conservative buying patterns, longer sales cycles, and competitive pricing pressures," said Patricia Gallup, Chairman and Chief Executive Officer. "While the near-term economic outlook remains uncertain, we feel confident our customers will continue to rely on us to provide the IT solutions they need to run their businesses more efficiently. We believe our core business strategies position the Company well for future success and for creating long-term shareholder value."
