MERRIMACK, N.H.--(BUSINESS WIRE)-- PC Connection, Inc. (dba Connection; **NASDAQ: CNXN**), an industry-leading National Technology Solutions Provider, today announced results for the quarter ended September 30, 2016. Net sales for the third quarter of 2016 increased by 4.1% to \$708.5 million, compared to \$680.8 million for the prior year quarter. Gross profit increased by 9.5% from \$88.6 million to \$97.0 million primarily due to an increase in gross margin from 13.0% to 13.7% in the third quarter of 2016. Net income for the quarter ended September 30, 2016 increased by 4.6% to \$13.6 million, or \$0.51 per diluted share, compared to net income of \$13.0 million, or \$0.49 per diluted share for the prior year quarter. Earnings per share, adjusted for acquisition costs, rebranding expenses, restructuring charges, and amortization of acquired intangibles, increased to \$0.54 cents per share for the quarter ended September 30, 2016, compared to \$0.50 cents per share for the prior year quarter.

"In September we launched our new brand name, Connection, and changed our ticker symbol to CNXN. The brand name reflects our mission to help connect people with technology in new and innovative ways," said Timothy McGrath, President and Chief Executive Officer. "Connection will unite all of our subsidiaries together into one cohesive brand that reflects the successes of our past and the promise of our future."

The third quarter 2016 results include \$1.1 million of acquisition, rebranding, and restructuring costs. This charge includes professional fees related to the GlobalServe acquisition, expenses related to rebranding to the "Connection" name, severance related to internal restructuring activities, and duplicate costs incurred in relocating facilities. The Company will continue to evaluate additional restructuring in the fourth quarter. In addition, the Company presented separately amortization of acquired intangible assets in the income statement, which was approximately \$0.3 million in the quarter.

Net sales for the nine months ended September 30, 2016 were \$1,957.0 million, an increase of \$67.4 million or 3.6%, compared to \$1,889.7 million for the nine months ended September 30, 2015. Gross profit increased by 9.6% from \$249.2 million to \$273.0 million primarily due to increase in gross margin from 13.2% to 14.0% for the nine months ended September 30, 2016. Net income for the nine months ended September 30, 2016 increased by 5.7% to \$35.1 million, or \$1.32 per diluted share, compared to net income of \$33.2 million, or \$1.25 per diluted share, for the nine months ended September 30, 2015. Earnings before interest, taxes, acquisition, rebranding, and restructuring costs, depreciation and amortization, and stock-based compensation expense ("Adjusted EBITDA") totaled \$94.8 million for the twelve months ended September 30, 2016, compared to \$86.1 million for the twelve months ended September 30, 2015.

Quarterly Performance by Segment:

- Net sales for the SMB segment increased by 12.5% to \$302.4 million in the third quarter of 2016, compared to the prior year quarter. Softmart's revenues for the third quarter, which were approximately \$42 million, are included in SMB since most of their customer base falls into this segment. Gross margin increased by 29 basis points to 15.4% due to strong performance in advanced technology solution categories, which contributed to a 14.7% increase in gross profit.
- Net sales for the Large Account segment decreased by 3.7% to \$233.8 million in the third quarter of 2016, compared to the prior year quarter. Gross margin improved by 143 basis points due to a strong performance in advance technology solution categories, which contributed to a 7.8% increase in gross profit.
- Net sales to the Public Sector segment increased by 1.8% to \$172.3 million in the third quarter of 2016, compared to the prior year quarter. Gross margin was basically unchanged and resulted in a slight increase in gross profit. The Company's Public Sector current order backlog is up over \$30 million from a year ago. This segment has won several large deals in September and early October, driving the increase. Some of these deals are at lower than average margins due to the competitive nature of the bidding process.

Quarterly Sales by Product Mix:

- Notebook/mobility sales, the Company's largest product category, increased slightly year over year and accounted for 24% of net sales in the third quarter of 2016 and 2015. Mobility continues to be a strategic focus area for customers in all segments.
- Software sales increased by 46% year over year and accounted for 21% of net sales in the third quarter of 2016 compared to 15% of net sales in the prior year quarter. We experienced growth in cloud-based offerings, security, and virtualization.

Overall gross profit increased by \$8.4 million, or 9.5%, in the third quarter of 2016, compared to the prior year quarter. Consolidated gross margin, as a percentage of net sales, increased to 13.7% for the third quarter of 2016, compared to 13.0% for the prior year quarter.

Selling, general and administrative expenses, excluding acquisition costs, rebranding expenses, restructuring charges, and amortization of acquired intangibles, increased in the third quarter of 2016 to \$73.2 million from \$66.2 million in the prior year quarter, with variable cost increasing due to higher levels of gross profit. We also had three months of Softmart SG&A in the current quarter. We continue to invest in technical solution sales capabilities and expect SG&A expenses to rise accordingly. However, we are highly focused on improving efficiencies and streamlining wherever possible.

Total cash was \$66.9 million at September 30, 2016, compared to \$80.2 million at December 31, 2015. The Company has generated positive cash flow of approximately \$32 million for the first nine months of 2016 before the Softmart acquisition of \$34 million and the special dividend of \$10.6 million. Days sales outstanding were 42 days at September 30, 2016, and inventory turns were 23 turns in the third quarter of 2016.

The Company acquired GlobalServe, Inc. on October 11, 2016. GlobalServe has developed a sophisticated network of over 500 resellers in 140 countries throughout the world. These resellers are connected to GlobalServe's internally-developed portal which enables a customer to have all of their global IT needs met, with a consistent delivery of lead times, reporting, pricing, and logistics. The key benefit to us is the ability to offer our existing and new customers this global capability. Virtually all of our large customers have international needs and now we own an industry leading tool which will simplify our customer's global IT procurement and reduce costs. We believe that this acquisition gives us a true competitive advantage in the marketplace, and we expect this will be an important component of our future growth strategy.

"The Company achieved record sales and increased earnings per share this quarter despite an overall soft IT spending environment. The main driver of profitability was an increase in gross margin percentage, as the Company continues to focus on selling advanced solutions. The recent acquisitions of Softmart and GlobalServe have expanded our capabilities and added significantly to our customer count, sales headcount, and technical personnel. We believe our team and the strategies we have in place position us well to gain market share and increase long-term shareholder value," concluded Mr. McGrath.

A reconciliation of EBITDA and Adjusted EBITDA is detailed below. Adjusted EBITDA is defined as EBITDA (earnings before interest, taxes, depreciation and amortization) adjusted for acquisition, rebranding and restructuring costs, and stock-based compensation. Both EBITDA and Adjusted EBITDA are considered non-GAAP financial measures. Generally, a non-GAAP financial measure is a numerical measure of a company's performance, financial position, or cash flows that either includes or excludes amounts that are not normally included or excluded in the most directly comparable measure calculated and presented in accordance with GAAP. We believe that EBITDA and Adjusted EBITDA provide helpful information with respect to our operating performance including our ability to fund our future capital expenditures and working capital requirements. Adjusted EBITDA also provides helpful information as it is the primary measure used in certain financial covenants contained in our credit agreements.

ADJUSTED NET INCOME AND ADJUSTED EARNINGS PER SHARE

A reconciliation from Net Income to Adjusted Net Income is detailed below. Adjusted Net Income is defined as Net Income plus the Amortization of Acquired Intangible Assets and Acquisition, Rebranding, and Restructuring Costs, net of tax. Adjusted Net Income and Adjusted Earnings Per Share are considered non-GAAP financial measures (see note above in Adjusted EBITDA for a description of non-GAAP financial measures). The Company believes that these non-GAAP disclosures provide helpful information with respect to the Company's operating performance.
