

PC Connection Introduces HealthConnection; Premier Partners Include HP, IBM, Lenovo, Palm, Kingston, Eastman Kodak, Konica Minolta, Lexmark, McAfee, APC, Planar

MERRIMACK, N.H., Feb 15, 2006 (BUSINESS WIRE) -- PC Connection Services, a subsidiary of PC Connection, Inc. (NASDAQ: PCCC), a leading direct marketer of information technology (IT) products and solutions, has introduced its HealthConnection™ initiative at the Health Information and Management System Society (HIMSS) show in San Diego, CA. Enabled through relationships with leading IT solution providers, HealthConnection comprises five components intended to further the healthcare industry's goal of a portable, secure, and complete electronic health record. HealthConnection solutions will be marketed to healthcare provider and payer organizations by PC Connection's three sales companies - PC Connection Sales Corporation, GovConnection, Inc., and MoreDirect, Inc.

"Healthcare environments today face a growing need to implement IT systems that allow users across the network to input, access, and manage patient information in a compliant and secure manner," said David Beffa-Negrini, Co-President, PC Connection Services. "Our HealthConnection solution providers will assist our healthcare customers to deploy the right technologies to meet this need."

HealthConnection's IT solution providers have created a solid framework for the delivery of five innovative solution sets developed to facilitate the seamless flow of information among patients, providers, and payers. HealthConnection premier partners are HP, IBM, Lenovo, Palm, Inc., Kingston Technology, Eastman Kodak, Konica Minolta, Lexmark International, Inc., McAfee, Inc., American Power Conversion, and Planar Systems, Inc.

The offerings of HealthConnection's premier partners include:

- Mobility in a healthcare setting;
- Capturing health data at the point-of-care (POC);
- Document management or information lifecycle management (ILM);
- Compliance to healthcare regulations that protect the privacy and security of electronic health information; and
- IT infrastructure including networks, robust servers, and scalable storage solutions.
