Connection (CNXN) Reports First Quarter 2020 Results

Gross Profit Increases by 13.9% From Prior Q1

FIRST QUARTER SUMMARY:

Gross profit: \$113.1 million, up 13.9% y/y
Net income: \$14.9 million, up 17.0% y/y
Diluted EPS: \$0.56, compared to \$0.48 y/y

MERRIMACK, N.H.--(BUSINESS WIRE)--April 29, 2020--Connection (PC Connection, Inc.; NASDAQ: CNXN), a leading technology solutions provider to business, government, and education markets, today announced results for the first quarter ended March 31, 2020. Net sales for the quarter ended March 31, 2020 increased by 12.5% to \$711.9 million, compared to \$632.9 million for the prior year quarter. Net income for the first quarter ended March 31, 2020 increased by 17.0% to \$14.9 million, or \$0.56 per diluted share, compared to net income of \$12.7 million, or \$0.48 per diluted share, for the prior year quarter. This reflects an increase in diluted EPS of 17.5% year-over-year.

Earnings before interest, taxes, depreciation and amortization, adjusted for stock-based compensation expense and restructuring and other charges ("Adjusted EBITDA") totaled \$130.9 million for the twelve months ended March 31, 2020, compared to \$108.1 million for the twelve months ended March 31, 2019.

Quarterly Performance by Segment:

- Net sales for the Business Solutions segment increased 10.2% to \$278.8 million in the first quarter of 2020, compared to \$252.9 million in the prior year quarter. We experienced strong growth in sales of mobility, desktops and accessories in the quarter. Gross profit increased by 16.7% to \$52.5 million in the first quarter of 2020, compared to \$45.0 million in the prior year quarter. Gross margin increased by 105 basis points to 18.8% due to higher sales volumes and changes in customer mix.
- Net sales for the Public Sector Solutions segment decreased by 4.5% to \$99.6 million in the first quarter of 2020, compared to \$104.4 million in the prior year quarter. Sales to the federal government decreased by 42.2%, compared to the prior year quarter, while sales to state and local government and educational institutions increased by 15.6%. Gross profit increased by 9.7% to \$14.4 million in the first quarter of 2020, compared to \$13.1 million in the prior year quarter. Gross margin increased by 187 basis points to 14.5% primarily due to changes in customer and hardware product mix, along with an increase in cloud-based software revenue, which is recognized on a net basis.
- Net sales for the Enterprise Solutions segment increased by 21.0% to \$333.4 million in the first quarter of 2020, compared to \$275.6 million in the prior year quarter. Gross profit increased by 12.1% to \$46.2 million in the first quarter of 2020, compared to \$41.2 million in the prior year quarter. Gross margin decreased by 110 basis points to 13.9% primarily due to hardware product and customer mix.

Quarterly Sales by Product Mix:

- Notebook/mobility sales, the Company's largest product category, increased by 14% year over year and accounted for 28% of net sales in the first quarter of 2020 and 2019. The Enterprise Solutions and Business Solutions segments experienced strong year-over-year growth from work-from-home initiatives and higher demand from healthcare customers that commenced in the beginning of March in response to the COVID-19 pandemic.
- Accessories sales increased by 45% year over year and accounted for 18% of net sales in the first quarter of 2020, compared to 14% of net sales in the first quarter of 2019. The Enterprise Solutions and Business Solutions segments experienced strong year-over-year growth in accessories sales, compared to the prior year quarter.
- Desktop sales increased by 6% year over year and accounted for 11% of net sales in the first quarter of 2020, compared to 12% of net sales in the prior year quarter. The Business Solutions segment experienced double-digit year-over-year growth in desktop sales.
- Software sales decreased by 3% year over year and accounted for 10% of net sales in the first quarter of 2020, compared to 11% of net sales in the first quarter of 2019. We experienced solid growth in cloud-based software offerings, which are recognized on a net basis.

Selling, general and administrative ("SG&A") expenses increased in the first quarter of 2020 to \$92.5 million from \$81.2 million in the prior year quarter. SG&A as a percentage of net sales, was 13.0%, compared to 12.8% in the prior year quarter. The increase in SG&A was primarily due to an increase in headcount and variable compensation due to the higher levels of gross profit. Additionally, we recorded \$2.8 million in bad debt expense in the first quarter of 2020, compared to \$0.2 million in the prior year, due to anticipated collection challenges from certain customers who have been significantly impacted by the COVID-19 pandemic.

Cash and cash equivalents were \$111.3 million at March 31, 2020, compared to \$90.1 million at December 31, 2019. In January 2020, we paid a \$0.32 per share special dividend to shareholders, which totaled \$8.4 million. During the first quarter of 2020, the Company repurchased 247,237 shares of stock for \$10.2 million.

"We are pleased with our first quarter results in which we achieved record Q1 revenue, gross profit, gross margin, net income, and earnings per share, while generating \$44.6 million of cash flow from operations. The Global pandemic, and the responses to it, such as work-from-home initiatives and increased demand for health care resources, generated increased demand for our products and services in Q1. However, the pandemic has also created a period of uncertainty as to the near-term demand for our products and services. As we navigate our way through these times, it is comforting to have a balance sheet with no debt," said Timothy McGrath, President and Chief Executive Officer. "I would like to thank our dedicated team for their commitment and hard work in delivering these results." Concluded Mr. McGrath, "we believe the team and the strategies we have in place well position Connection to gain market share and increase long-term shareholder value."

Conference Call and Webcast

Connection will host a conference call and live web cast today, April 29, 2020 at 4:30 p.m. ET to discuss its first quarter financial results. To access the conference call (audio only), please dial 877-776-4016 (US) or 973-638-3231 (International). A web-cast of the conference call, which will be broadcast live via the Internet, and a copy of this press release, can be accessed on Connection's website at ir.connection.com. For those unable to participate in the live call, a replay of the webcast will be available at ir.connection.com approximately 90 minutes after the completion of the call and will be accessible on the site for approximately one year.

Non-GAAP Financial Information

Adjusted EBITDA, Adjusted EPS and Adjusted Net Income are non-GAAP financial measures. These measures are included to provide additional information with respect to the Company's operating performance and earnings. Non-GAAP measures are not a substitute for GAAP measures and should be considered together with the GAAP financial measures. Our non-GAAP financial measures may not be comparable to other similarly titled measures of other companies. A reconciliation to the most directly comparable GAAP measure is available in the tables at the end of this release.

EBITDA AND ADJUSTED EBITDA

A reconciliation of EBITDA and Adjusted EBITDA to the most directly comparable GAAP measure is detailed below. Adjusted EBITDA is defined as EBITDA (earnings before interest, taxes, depreciation and amortization) adjusted for restructuring and other charges, and stock-based compensation. Both EBITDA and Adjusted EBITDA are considered non-GAAP financial measures. Generally, a non-GAAP financial measure is a numerical measure of a company's performance, financial position, or cash flows that either includes or excludes amounts that are not normally included or excluded in the most directly comparable measure calculated and presented in accordance with GAAP. We believe that EBITDA and Adjusted EBITDA provide helpful information with respect to our operating performance including our ability to fund our future capital expenditures and working capital requirements. Adjusted EBITDA also provides helpful information as it is the primary measure used in certain financial covenants contained in our credit agreements. Non-GAAP measures are not a substitute for GAAP measures and should be considered together with the GAAP financial measures. Our non-GAAP financial measures may not be comparable to other similar titled measures of other companies.

ADJUSTED NET INCOME AND ADJUSTED EARNINGS PER SHARE

A reconciliation from Net Income to Adjusted Net Income is detailed below. Adjusted Net Income is defined as Net Income plus restructuring and other charges, net of tax. Adjusted Net Income and Adjusted Earnings Per Share are considered non-GAAP financial measures (see note above in Adjusted EBITDA for a description of non-GAAP financial measures). The Company believes that these non-GAAP disclosures provide helpful information with respect to the Company's operating performance.
